

3200W photovoltaic panel power generation

Overview

What is a P3200 solar generator?

The P3200 solar generator delivers AC electricity with a waveform nearly identical to a pure sine wave, ensuring minimal interference with sensitive devices like oscilloscopes thanks to its low THD. SmartDrive Technology The IEETek P3200 portable power station provides a nominal AC output of 3200W and can handle surges up to 6400W.

What kind of battery does the ieetek P3200 have?

The IEETek P3200 portable power station is equipped with a durable LiFePO4 battery designed for longevity. Even after 4,000 cycles, it retains 80% of its usable capacity, providing dependable backup power during home outages.

How does the ieetek P3200 portable power station work?

The IEETek P3200 portable power station features a EPS function that seamlessly switches to backup power within 10 milliseconds when connected between the grid and your devices. It can be charged using grid power, with the charging circuit automatically shutting off once the battery is fully charged.
