

# **48v lithium battery 20ah battery pack**

## Overview

---

What is ashvavolt 48V 20Ah portable battery pack?

AshvaVolt 48V 20Ah portable battery pack is a compact, safe and economical Li-Ion battery pack. This standalone battery pack is designed for Electric Vehicle (Bike and Scooty) with high power NMC Li-Ion Cells. No additional equipment is required for safe operation of battery pack.

What is a 48V 50Ah lithium ion battery kit?

This 48V 50AH Lithium Ion Battery Kit is plug and play for starting or deep cycle applications including Marine, RV, Golf, Solar, Off Grid, Propulsion and other applications requiring a lightweight lithium battery to replace Lead Acid, Gel or AGM Batteries.

What is the long range for 48V 20Ah lithium ion battery?

The power supply capacity of a 48V20AH lithium ion battery is 960 watt hours (WH). The riding time for a 450W motor with this battery capacity is 2.13 hours. (Note: This calculation assumes 100% battery usage and no power losses.).

How long can a 48v20ah battery last?

The power supply capacity of a 48V20AH battery is 960WH (watt hour). Based on the rated load of a 450W motor, the battery can power the vehicle for approximately 2.13 hours. However, there are many factors that affect the speed of electric vehicles, so the actual endurance time may vary.

What equipment is required for safe operation of battery pack?

No additional equipment is required for safe operation of battery pack. In extreme operating conditions, BMS disconnect battery from the system. This ensure safe operation and protect the battery pack against short circuits, over-charge, over-discharge, over current and over temperature.
