

# 5G base station of Estonia Communications

## Overview

---

Where is 5G coming from in Estonia?

According to a company release, the main focus in developing and expanding the 5G network has been on larger cities such as Tallinn, Tartu, and Pärnu. At the same time, new 5G base stations are increasingly emerging in other regions of Estonia.

Is Telia 5G available in Estonia now?

Telia has launched a commercial 5G network in Estonia. The new network is currently available in Tallinn, Tartu, and Pärnu, and will be expanded to 20 locations by the end of the year. Estonia is already a leader in digitalization.

What percentage of Estonia's population is covered by 5G?

Telia's 5G network covered approximately 75 percent of the population of Estonia at the beginning of October, whereas by the end of next year, 5G coverage is planned to expand to nearly 95 percent of the population.

How do I use Telia's 5G network?

To use Telia's 5G network, the customer needs to own a 5G-compatible smartphone as well as to have purchased a private or business customer mobile package containing a certain volume of data. [MORE ARTICLES YOU MAY BE INTERESTED IN.](#)

How fast is Telia 5G?

In the 26-gigahertz band, Telia clocked in a new 5G network speed record at the beginning of this summer -- 2.2 gigabits per second during download. According to the CTO, the 5G network is developed using different frequency bands to deliver the potential, quality and speeds enabled by 5G to customers in rural and urban areas alike.
