

Base station battery problem

Overview

Why is my SimpliSafe base station not charging?

If you are having issues charging your SimpliSafe Base Station's batteries, below are a few possible causes: You may be using the wrong type of batteries. SimpliSafe Base Stations use Nickel Metal Hydride (NiMH) rechargeable batteries, hence why the base stations can be recharged. If you use the wrong batteries, your base station might not charge.

Why is my base station not charging?

Your base station cable is damaged. A less likely but still possible reason is that the base station's charging cable is damaged. Check for any breakage, cuts, or burns in the cable. If your cable looks damaged, this may be the reason the batteries aren't charging. The batteries are bad.

Why is my ring base station not working?

If your Ring Base Station is stuck or not working, try these simple troubleshooting methods: Turn it off and on again by rebooting your Base Station. You can do this by briefly tapping the reset button on the back of your Base Station. Don't hold it down, or it will factory reset it, though! It might be a connectivity issue.

What if a base station doesn't turn on?

If the base station is plugged into a working outlet (and the power cable isn't damaged) but still isn't turning on, try restarting the base station. To do that, Turn over the base station and unscrew the battery cover using a screwdriver. Remove the batteries from the base station and wait a minute or two before reinserting them.

How do I remove a battery from my base station?

To remove the battery from a SimpliSafe base station, unplug the power cord and use a screwdriver to open the battery compartment. Once open, remove

the battery, wait a few seconds, and then put the battery back in and plug the power cord back in. The Base Station will then come back on.

What happens if a base station is not updated?

If the base station is not updated to its latest version, the smart lock or other security devices may not work. You will need to use the smart home keypad to update the base station software. Your device will remain offline for the time while the update is going on. Here is the method to update the base station-
