

Base station power cabinet has no charging current

Overview

Why is my power station not charging to 100%?

Your power station is not charging to 100% or suddenly goes to zero. Possible causes: Do a deep cycle calibration: discharge completely, then charge to 100% uninterrupted. If it doesn't help, means there is cell imbalance inside your lithium power pack. Some models support battery balancing via firmware. Check your manual or consult support. 4.

Why is my power station taking so long to charge?

Your power station is taking too long to get charged. Possible causes: Use thick, short, high-quality cables for efficient charging. Charge with a high-wattage wall adapter or DC/DC car charger. If the unit gets hot, it'll slow the charging to protect itself. Charging early in the day or in a cool area can speed things up. 6.

What if I have problems with my base station?

If you continue to experience issues with your Base Station, please reach out to our Support Team at support@nomadgoods.com. We prefer to help you solve technical issues over email as opposed to phone so we can request photos and videos and send you step-by-step troubleshooting instructions you can then look back on if needed.

How do I Reset my base station Pro?

If you notice that your Base Station Pro has stopped charging devices, is intermittently charging, or the LEDs are continuously blinking orange or white, reset the unit by unplugging the charger from its power source, waiting 3 seconds, then plugging it back in.

Why is my portable power station not turning on?

When the screen glitches, users think the battery's dead. But it's usually just a communication issue. Repairing portable power station is not much difficult.

Because mostly problems are at minor level and can be resolved with easy fixes or replacements. 1. Won't Turn On – Is it Dead?

Portable power system is not turning on. Possible causes:.

Why are my base station Pro LEDs blinking?

Note, Base Station Pro's LEDs may start blinking when a device that is not wireless charging enabled is placed on the charging pad. This doesn't indicate a defect but rather that your device is not recognized as Qi-enabled. If you continue to experience issues with your Base Station, please reach out to our Support Team at support@nomadgoods.com.
