

Belgian solar sun room

Overview

Can you use solar energy on a balcony in Belgium?

According to the officials, Belgium is making it easier for people to use solar energy. New plug-in solar panels, also called balcony solar panels, are now available. These small panels can be easily put up on balconies, windows, or small outdoor spaces. They mentioned that people who rent or don't have a roof or garden can now use solar energy.

How does Belgium support solar panels?

Belgium encourages the use of solar energy by offering various forms of financial support. This support makes the installation of solar panels more affordable for many people. Each Belgian region (Flanders, Wallonia and Brussels) offers money to help pay for the installation of solar panels. The amount varies depending on where you live.

Is Belgium launching plug-in solar panels for balconies?

Brussels (Brussels Morning Newspaper) – Belgium is launching plug-in solar panels for balconies, starting on April 17, 2025. Energy Minister Zuhal Demir supports this with an 800-watt limit per household to ensure safety and efficiency. According to the officials, Belgium is making it easier for people to use solar energy.

Will Belgium legalize a balcony Solar System in 2025?

Belgium legalized balcony solar systems for the first time in April 2025, as the country targets a 40% increase in solar capacity by the end of this year. The Enphase IQ Balcony Solar System will help more people participate in the energy transition, supporting greater energy independence across Europe.

Can you install solar panels on a roof in Belgium?

Installing solar panels on your roof is a (very) cost-effective operation. In Belgium, there are a number of subsidies to help cover the cost of installing

solar panels. You can also choose the model of the self-consumption of energy produced by panels, which is also very advantageous.

Is Belgium making solar energy more efficient?

Energy Minister Zuhal Demir supports this with an 800-watt limit per household to ensure safety and efficiency. According to the officials, Belgium is making it easier for people to use solar energy. New plug-in solar panels, also called balcony solar panels, are now available.
