

# **Benefits of Solar Panels**

## Overview

---

Fossil fuel remains a resource in declining supply that, when burned to create energy, releases harmful byproducts into our atmosphere. Solar power has the potential to help us minimize our use of fossil f.

Do solar panels save money in the long run?

Yes, solar panels save money in the long run. Although there is an initial upfront cost, solar panels are warrantied for 25 years. You will begin to see monthly savings in energy bills, but there are other ways that solar panels pay you back.

Are solar panels worth the investment?

Yes, solar panels are worth the investment. On average, Colorado homeowners pay about \$88 in electricity costs per month. By eliminating or decreasing those costs with solar panels, you can expect to save about \$14,500 over the 25-year or more life span of your solar panel system.

How do solar panels help the environment?

Solar facilities that have been monitored regularly by ecologists demonstrate an increase over time in the local abundance and variety of plants, pollinators, birds, and other wildlife. Professor Bob Nichol, the University of Surrey's Executive Lead for Climate Change, said:
