

Bifacial solar panels with 12-year warranty

Overview

What is the lifespan of bifacial solar panels?

Bifacial solar panels typically come with a 30-year warranty. While the front of the panels generates most of the power, the backside can produce an additional 5% to 30% of the energy absorbed by the front.

Are bifacial solar panels worth considering?

Bifacial solar panels are well worth considering as they generate energy from both the front and back sides, delivering more energy to your home than one-sided solar panels.

What is a Longi 610w bifacial solar panel?

The Longi 610W Bifacial Solar Panel is a 72-cell bifacial solar panel offering excellent performance with up to 22.6% peak efficiency. Ideal for ground mount applications, Longi solar panels also feature lower resistive loss with lower operating current, higher energy yields and lower operating temperature.
