

# **Brazilian solar panel factory**

## Overview

---

In 2016, a factory capable of producing 400 MW of solar panels a year opened in São Paulo, owned by . A plan to build a solar panel factory in was announced by the Chinese manufacturer Chint in 2017. In 2020 LONGi Signs Association Agreement for 908 MW of Solar Modules in Brazil. The opening of three major solar farms in Brazil in 2017 altered the solar situation: the 292 MW.

With the inauguration of the first 100% Brazilian photovoltaic module factory, Sengi Solar wants to be more than an alternative to China — the source of most of the solar panels supplied to the world — and hopes to open the door for new manufacturers of solar power components to establish in the country, at a time when Brazil is witnessing the power source increase its installed capacity at a fast rate.

## Brazilian solar panel factory
