

British lithium battery pack source manufacturer

Overview

Britcell delivers advanced battery pack solutions engineered in the UK for diverse sectors, from automotive to medical and industrial applications. With a focus on safety, innovation, and reliability, our certified products meet the highest international standards including UN38.3 and IEC. Who makes lithium ion battery packs?

Our lithium ion battery pack manufacturing team can design and assemble prototypes, small production runs as well as large scale mass production. AceOn predominantly build Lithium Ion 18650 battery packs, using well known 18650 Li-ion cell manufacturers such as Samsung, LG Chem, Panasonic and Sanyo.

Is the UK leading the lithium battery market in 2024?

As we move into 2024, the United Kingdom stands out as a pivotal player in the lithium battery market, showcasing remarkable growth in production capabilities and technological innovation. This comprehensive exploration delves into the strategic supply chain centers within the UK, profiles the top six lithium ion.
