

China Communications to jointly build 5G base stations

Overview

How many 5G base stations will China build in 2025?

China plans to construct over 4.5 million 5G base stations in 2025 while introducing additional policy and financial incentives to support industries expected to shape the next decade, the country's Ministry of Industry and Information Technology (MIIT) announced during its annual work conference.

How many base stations will China Mobile and China Broadcasting Network build?

(Yicai Global) March 10 -- Telecoms carriers China Mobile and China Broadcasting Network plan to complete the construction of 400,000 700 megahertz fifth-generation base stations by the end of this year, China Mobile said at a press conference today, according to The Paper.

Will China and China build 5G networks together?

According to the Agreement, the two operators, by sharing the radio spectrums to their names, will "build together" and "share together" one 5G radio access network in 15 major cities, including Beijing, Shanghai, Shenzhen, Guangzhou, etc. The 5G core networks will be built separately.

Will China Telecom and China Unicom build their own 5G networks?

On top of that, the two companies will build their own separate 5G networks in other parts of the country. China Telecom's own network will extend to 19 provinces, while China Unicom's will cover 10.

What is China mobile's 5G partnership with CBN?

Prior to this, the pair had reached a 5G strategic cooperation agreement on Jan. 26 to launch joint construction and sharing of a 700 MHz 5G network, with each party investing half for the new construction, expansion and renovation. Meanwhile, China Mobile will share its 2.6 gigahertz 5G network with CBN for a fee.

Which country is cooperating with China Mobile on 5G?

Founded in 2014, Beijing-based CBN is the most recently established, so lacks users and infrastructure, which is partly why it is cooperating with China Mobile on 5G. China Unicom and China Telecom had also hoped to participate in 5G construction with the 700 MHz frequency band.
