

Communication base station inverter patent

Communication base station inverter patent

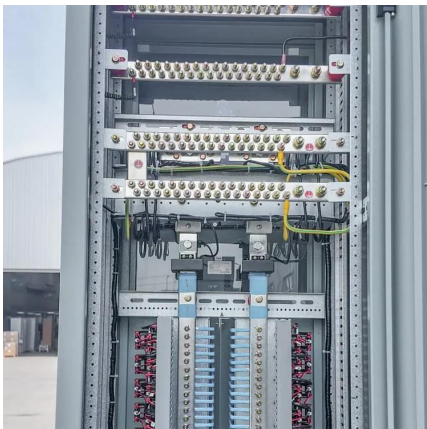

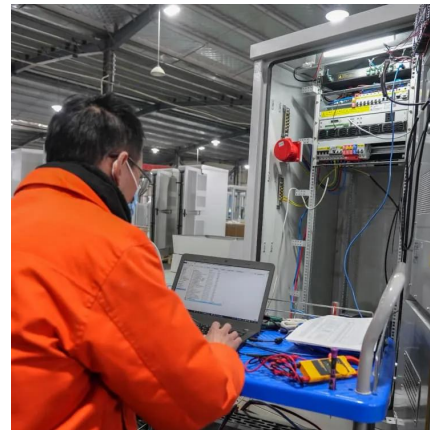

COMMUNICATION DEVICE, BASE STATION, AND METHOD

Technical Field [0002] The present disclosure relates to a communication apparatus, a base station, and a method used in a mobile communication system.

Mobile communication base station equipment

It summarizes the technical point description of the patent document. A technology of mobile communication base stations and equipment, which is ...

31030010_SC Company Profile(1

The one-stop energy storage system for communication base stations is perfectly compatible with mainstream batteries on the market and can match the space, load-bearing, and safety ...

KR19990083659A

Accordingly, in the present invention, the forward direction passes some of the talk frequency used in the service base station to the transmission carrier converter to generate a pseudo

US-20110261759-A1

The mobile communication system is formed by the base station apparatus and the mobile station apparatus. The system manages specific system information elements used by a plurality of ...

CN202178611U

The power supply system of the three-stage safety communication base station can ensure safe and stable operation of the communication base station through the three independent power ...

COMMUNICATION BASE STATION

In the communication base station in this embodiment, an adapter board is designed between the radome and the radiator, so that sizes of the radome and the radiator ...

BASE STATION, TERMINAL, AND COMMUNICATION METHOD

One non-limiting and exemplary embodiment facilitates providing a base station, a terminal, and a communication method capable of appropriately determining a parameter required for an ...

US20250203438A1

A communication system configured to support a plurality of frame formats used for wireless communication, includes a base station, and a user apparatus configured to wirelessly ...

Mobile communication base station system

One or more example embodiments relate to a mobile communication base station system, and more particularly, to a mobile communication base station system having a structure in which ...

CN102853501A

The invention discloses a communication base station and a temperature control method thereof, belongs to the field of heat exchange, and is designed for solving the problems in the prior art ...

CN-1618246-A

The invention concerns a cellular communication system comprising a terminal (102), a base station (101) (for example UMTS) and a communication equipment (111) designed to transmit ...

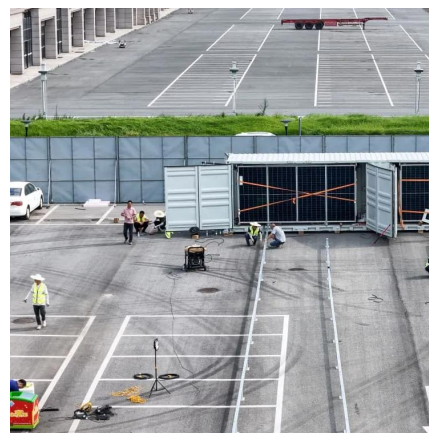

Universal communication base station solar and wind energy ...

The communication base station new energy centralized power supply main loop and a communication base station monitor are used for providing a new energy power supply for the ...

CN220401620U

The utility model relates to the technical field of inverters, in particular to a photovoltaic system inverter suitable for a communication base station.

2809117 BASE STATION DEVICE, MOBILE STATION DEVICE, ...

The present invention enables efficient transmission/reception of a signal including control information between a base station apparatus and a mobile station apparatus. To realize this, ...

Cooling method of communication base station

The invention discloses a cooling method of a communication base station, which aims to solve the problems that in the prior art, the cooling reliability of the communication base station is ...

COMMUNICATION DEVICE, BASE STATION, AND METHOD

Technical Field [0002] The present disclosure relates to a communication apparatus, a base station, and a method used in a mobile communication system.

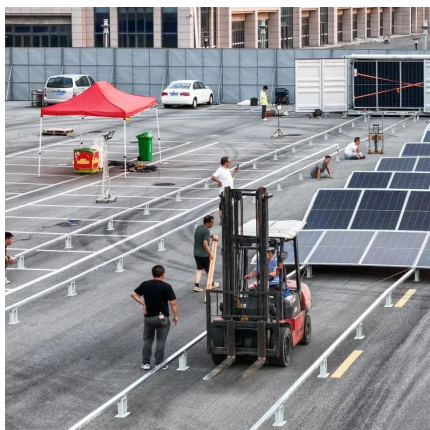

WO/2025/013952 USER EQUIPMENTS, BASE STATIONS, AND ...

WO2025013952 - USER EQUIPMENTS, BASE STATIONS, AND COMMUNICATION METHODS. A method performed by a user equipment (UE) is described.

BASE STATION, TERMINAL, AND COMMUNICATION METHOD ...

One non-limiting and exemplary embodiment facilitates providing a base station, a terminal, and a communication method capable of appropriately determining a parameter required for an ...

Communication Base Station

The solution for off grid photovoltaic power stations is mainly aimed at residential roofs, with common installed capacities ranging from 3 to 50kW. It features efficient power generation, ...

5G LTE mobile communication base station

At present, a 5G LTE mobile communication base station is mainly a base station deployed for mobile communication by a mobile communication provider, and is used for bearing ...

CN-115396755-A

The invention relates to the field of sensing monitoring, and discloses a method, a device, equipment and a storage medium for operation and maintenance of a power pipe gallery, ...

2809117 BASE STATION DEVICE, MOBILE STATION DEVICE, COMMUNICATION

The present invention enables efficient transmission/reception of a signal including control information between a base station apparatus and a mobile station apparatus. To realize this, ...

WO2021238815A1

The present application provides an antenna, a use method, and a communication base station. The antenna comprises a feed source, a parasitic array, and a main reflection plate; the main ...

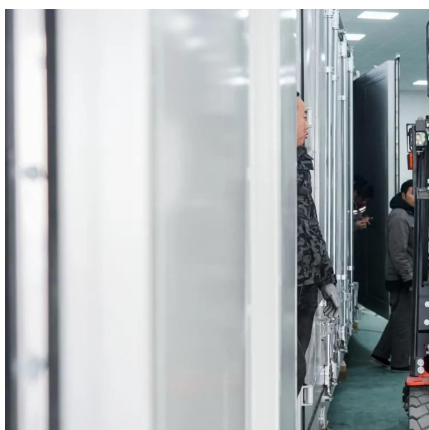

COMMUNICATION APPARATUS, BASE STATION, AND

A communication apparatus is a communication apparatus capable of communicating with a plurality of networks including a first network and a second network by ...

WO/2025/013952 USER EQUIPMENTS, BASE STATIONS, AND COMMUNICATION ...

WO2025013952 - USER EQUIPMENTS, BASE STATIONS, AND COMMUNICATION METHODS. A method performed by a user equipment (UE) is described.

US20240235483A1

H03F1/0288 -- Modifications of amplifiers to raise the efficiency, e.g. gliding Class A stages, use of an auxiliary oscillation in transistor amplifiers using a main and one or several auxiliary

Universal communication base station solar and wind ...

The communication base station new energy centralized power supply main loop and a communication base station monitor are used for providing a new ...

KR-100972132-B1

The present invention relates to a terminal 102 and a base station 101 (e.g., UMTS) and communication equipment 111 that also transmits data to the terminal and is not provided with ...
