

Contract price for installing photovoltaic panels

Overview

It costs around \$30,000 to install solar panels. That's a big number, but incentives usually lower it significantly. The average U.S. solar shopper needs about 11 kilowatts (kW) of home solar to cover their electricity usage. How much does a solar panel installation cost?

A 6- to 10-kW solar panel installation costs \$12,600 to \$31,500 after the 30% federal tax credit. Solar panel prices depend on the size, type, and quality. *Total cost may be lower with additional state and local incentives. Get free estimates from solar panel installers near you. Residential solar panel prices vary from state to state.

How much does a solar inverter repair cost?

Labor is typically priced at \$100 per hour. Materials for solar repairs could be as little as \$180 but may also be greater than \$1,000. Your combined total bill may range from \$200 to \$3,000. A replacement inverter is the most common repair, and this is a planned maintenance item every 10-13 years.

How much does it cost to remove and reinstall roof panels?

It cost \$5,000 to remove and reinstall the panels after the roof was replaced. "If I had known the roof was in such bad shape, I would've replaced the roof before installing the panels," Devin told us.
