

# **Cost of energy storage equipment in Somalia**

## Overview

---

How much does electricity cost in Somalia?

Regarding costs per kilowatt-hour of electricity, Somalia has one of the highest unit prices in Africa. Somalia has higher tariffs than neighboring countries Kenya and Ethiopia, ranging from 50-125 cents/kWh compared to 0.15 cents/kWh in Kenya and 0.6 cents/kWh in Ethiopia. Somalia's energy sector is considered promising for growth and investment.

What is the energy sector like in Somalia?

Somalia's energy sector is considered promising for growth and investment. Small and medium-sized private sector companies are the main providers of electricity generation and distribution, primarily running diesel powered systems through off-grid networks.

What is the future of LPG in Somalia?

The LPG sector has high potential for growth and expansion in the country, including the development of onshore offloading bays, distribution logistics, retail, and franchising. Solar Energy: Somalia has high renewable energy potential. Solar power could generate an excess of 2,000 kWh if the country reached its full capacity.

Which companies provide off-grid solar energy solutions in Somalia?

In addition, several other companies exist that provide off-grid solar energy solutions, including Blue Sky, Solargen, Delta, and others. Financing represents the biggest obstacle to Somalia realizing its potential as a hub for renewable energy. International development partners are providing support in the solar energy sector.

Who generates electricity in Somalia?

Small and medium-sized private sector companies are the main providers of electricity generation and distribution, primarily running diesel powered

systems through off-grid networks. Private Somali companies generate approximately 128MW; most companies generate and distribute electricity independently.
