Discover the latest electric car prices, detailed specifications, and key features of leading EV brands and models in Ethiopia at Motowheeler. Our platform provides in-depth information about performance, range, charging capabilities, safety features, and technology innovations in the growing electric vehicle market.

Are electric cars the future in Ethiopia?

“There’s no doubt that EVs are the future. It’s only a matter of time before they dominate the streets of the capital,” remarked Moges Negash, an automotive engineer and electric car expert. Ethiopia spent \$6 billion on fuel imports in 2023, over half of which went to fueling vehicles, according to the Ethiopian Ministry of Transport and Logistics.

Is Ethiopia a leader in Africa's electric vehicle transition?

Ethiopia has emerged as an unexpected leader in Africa’s electric vehicle (EV) transition. In 2023, the country became the first in the world to ban imports of internal combustion engine (ICE) vehicles.

Are used cars a problem in Ethiopia?

Like most African countries, Ethiopia’s roads are dominated by used cars, which make up around 85% of vehicles. But a complex mix of high import duties — historically as high as 200% — and chronic foreign currency shortages have long made car ownership out of reach for most Ethiopians.

What does Ethiopia's EV push mean for the EV industry?

Against this backdrop, Ethiopia’s EV push marks a dramatic pivot. The ICE ban, combined with import duty waivers and tax exemptions for EVs, signals a radical shift in transportation policy. If government-reported EV figures are accurate, they point to a wholesale transformation of the national vehicle fleet

in a remarkably short time period.

How many EVs are there in Ethiopia?

According to the Ministry of Transport and Logistics, the country now has 100,000 EVs on its roads, accounting for roughly 8.3% of its estimated 1.2 million registered vehicles. If accurate, that would make Ethiopia the clear front-runner in EV penetration on the continent, and a surprising contender among top global adopters .
