

Georgia container energy storage lithium battery factory

Overview

Does Georgia have a battery plant?

The Ellabell site is part of one of Georgia's largest manufacturing plants. Gov. Brian Kemp of Georgia, a Republican, has promoted the \$7.6 billion Hyundai E.V. factory there as the largest economic development project in state history. The immigration operation brought construction to a halt at the battery plant, known as HL-GA Battery Company.

Will Georgia Power offer more battery energy storage projects?

In that filing, Georgia Power signaled its intention to solicit bids for more storage- another 500 MW- in the near future. Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report.

Where are battery energy storage projects popping up?

Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report. Most of the new batteries- 97% of them- ended up in ERCOT, WECC, and CAISO territories.
