

How much does a water pump inverter cost in Pretoria

Overview

How much does a Mecer aspire water pump solar inverter cost?

PLEASE RELY ON ABOVE DESCRIPTIONS AND NOT ON IMAGES. SOL-I-AS-2 MECER Aspire Water Pump Solar Inverter 3 Phase 2.2kW is available from Mecer PC and it is sold as new from our Inverters range of products. For reference purposes, the price of R4975 is valid 2025-06-24, and while stocks last, may be valid until 2025-06-30.

What is a water pump solar inverter?

The 3-phase in, 3-phase out solar pump inverter is environmentally friendly with a long lifetime and lower maintenance costs. Built-in MPPT ensures you to get the best output power and optimizes the performance of water pump solar Inverter along the day as it starts and stops automatically based on the intensity of solar radiation. Specifications:.

How much power does a water pump need in South Africa?

In South Africa, 450W panels and above are recommended. Higher quality panels often reflect in the system's price. Borehole depth affects the required pump power. Deeper boreholes need more powerful pumps, impacting overall system prices. For a 1.5 HP pump, a 4000W inverter is recommended. This setup provides 2-3 hours of runtime.

Can a solar inverter be used with a submersible pump?

DC – AC inverter can be used with surface or submersible pumps. This cutting-edge solar inverter for pumps is designed to enhance the performance of water pumping systems using solar energy.

What is MPPT water pump solar inverter?

Built-in MPPT ensures you to get the best output power and optimizes the performance of water pump solar Inverter along the day as it starts and stops automatically based on the intensity of solar radiation. Specifications: © 2018

Respective owners and brand holders.

Why do you need an inverter water pump?

Minimum Power Protection – Ensures the pump continues running even with reduced solar energy availability. This inverter water pump solution is ideal for diverse applications such as powering three-phase motors for boreholes, irrigation systems, livestock watering, and water transfer in remote locations.
