

# **How much is the price of outdoor power supply in Libya**

## Overview

---

What is the price of electricity in Libya?

Libya, September 2022: The price of electricity is 0.011 U.S. Dollar per kWh for households and 0.042 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

How much power does Libya have?

As of January 2017 it was estimated that Libya's power stations were able to generate 5050 MW of power while the actual demand was reportedly assessed to be running at 6800 MW, resulting a supply vs demand gap of 1750 MW – anticipated to rise over the Summer to 2150 MW as the network struggles to meet the demand for air-conditioning.

What is the average price of electricity in the world?

For comparison, the average price of electricity in the world for that period is 0.171 U.S. Dollar per kWh for households and 0.193 U.S. Dollar for businesses. We calculate several data points at various levels of electricity consumption for both households and businesses but on the chart we show only two data points.

Where is Libya located in North Africa?

Libya, located between Algeria and Tunisia in the west, Egypt in the east, and bordering the Mediterranean Sea in the north, is the second biggest country in North Africa and has a population of 6.3 million. Following the removal of Colonel Gaddafi in 2011, the country has been thrown into civil war.
