

How to make a power board base station with a battery cabinet

Overview

What battery does my DIY power station use?

My DIY power station has 1,464 watt hours of energy using a 122 amp hour flooded lead-acid battery from Wal-Mart. This battery is no longer available, however you will find alternative 100 amp hour AGM and LiFePO4 batteries linked below.

What should I consider when building a DIY solar power station?

One important factor to consider when building this DIY solar power station: Since I've gone with a flooded lead-acid battery, it is extremely important to not drain the capacity past 50%. This is due to something called depth of discharge (D.O.D).

How do you mount a Ryobi charger to a wall?

In fact, the Ryobi charger was so close to the top that I just sent the wire in over the top. Make a hole in the side of the cabinet. This is where the power strip plug will exit to be plugged into the wall. There are multiple ways you can mount the charging station to the wall: Use a screw through the back into a stud. Using a French cleat.

What makes a good charging station?

The top part of the charging station is like a cabinet with heavy-duty hinges and a magnetic latch. The inside of the charging cabinet is open on the top and bottom, allowing air to flow. A good-quality heavy-duty power strip with enough plugs and USB points to accommodate all the chargers. ***This post contains referral or affiliate links.

What is a cordless tool battery charger station?

This station is perfect for holding all of your cordless tool battery chargers. What sets it apart from a simple shelf is the concealed chase for routing and hiding the power cords for a nice clean look. This is a very simple project

made from just a quarter sheet of plywood and a few screws.

How do you mount a charging station to a wall?

There are multiple ways you can mount the charging station to the wall: Use a screw through the back into a stud. Using a French cleat. I decided to use a French cleat because I didn't have two studs accessible in the space where I needed to add the cabinet.
