

# **Huawei charging station energy storage cabinet battery**

## Overview

---

Can a battery cabinet be deployed outside a smart module?

Battery cabinets or racks can also be deployed outside smart module A (batteries deployed outside) or smart module B. The front door is a single door, and the rear door is a double one. Shoto batteries are supported.

How many smartli lithium battery cabinets can be connected?

Scenario where SmartLi 3.0 lithium battery cabinets are deployed outside the smart module: One integrated UPS can connect to a maximum of 10 SmartLi 3.0 lithium battery cabinets. When multiple cabinets are connected in parallel, only the master cabinet has an LCD.

Can a battery module be charged or discharged?

As a result, the battery modules cannot be charged or discharged. Start the air conditioner to heat the battery modules to 3°C or above, and the charge and discharge will be resumed. Note: N indicates the number of battery modules connected in series.
