

Large Capacity Outdoor Power Cabinet

Overview

What is a Longxing outdoor power cabinet?

LongXing outdoor power cabinet provides flexible size options, offers the ideal enclosure solution to build the whole base station inside.

What is a large electrical cabinet?

A large electrical cabinet refers to an electrical enclosure with two doors. These doors often open in different directions and are often lockable to prevent unauthorized access. Most large electrical cabinets have this design for easier access to the enclosed equipment.

Can KDM make a large electrical enclosure?

Yes, KDM can manufacture a large electrical enclosure for you. They can make it using materials like stainless steel, mild steel, galvanized, powder coated, and aluminum. If a higher IP rating like IP65 is required, KDM can also produce it for you.

What types of cabinets are available?

Currently, T100, T300, and T500 product models are available, covering small and medium-sized copper, OLT, and WDM devices in wall, pole, pedestal, or elevated platform installation scenarios. • Smooth evolution: The framework and modular designs of the cabinets facilitate onsite cabinet combination to allow unlimited cabinet space expansion.

Can a T Series cabinet be combined with a battery cabinet?

For example, a T series cabinet can be combined with a battery cabinet on the left side to expand the battery capacity and with a top-box on the top to expand the service capacity, meeting the requirements of an increasing site penetration rate.
