

Large-scale outdoor power supply

Overview

What is outdoor large-capacity portable power supply?

Due to its small size, large capacity, and mobility, the outdoor large-capacity portable power supply is equivalent to a large-scale portable charging treasure for people who work outdoors. It can be used in emergency rescue, emergency power supply, backup power supply, and other use scenarios.

What is a large capacity portable power supply?

The outdoor large-capacity portable power supply has a power output of 220V/500W/1000W/1500W/2000W/3000W, but a large power means larger capacity support, and a large capacity means excellent quality. Take the capacity battery 6000wh as an example, the basic weight is close to 45KG, which is no longer “portable”.

What is an outdoor UPS power system?

Encased in a durable IP68 housing, it guarantees durability even in harsh weather conditions. With a wide input voltage range (100 to 240V AC) and operating temperatures from -4°F to 140°F, the Outdoor UPS Power System ensures consistent performance and system reliability in inclement outdoor environments.

Does TSI power offer outdoor xups?

TSI Power's Outdoor XUPS series of rugged outdoor uninterruptible power supplies is the ideal way to supply backup power in extreme environments. TSI Power offers a comprehensive suite of accessories for the Outdoor XUPS. Mounting brackets, battery heaters, maintenance bypass switches, security solutions, and more are available.
