

Libya New Energy Company Energy Storage Project

Overview

What is Libya's energy supply based on?

Furthermore, in 2020, the combined revenues from oil and natural gas exports constituted approximately 73% of Libya's total export value. In 2020, the total energy supply (TES) primarily came from oil and gas, which contributed 53% and 43%, respectively, while renewables accounted for approximately 4%.

What is energy in Libya?

Energy in Libya primarily revolves around the production, consumption, import, and export of energy, with a significant focus on the petroleum industry, which serves as the backbone of the Libyan economy.

What is 'structures A&E' in Libya?

Tripoli (Libya), 28 January 2023 – Eni CEO, Claudio Descalzi, and the CEO of the National Oil Corporation of Libya (NOC), Farhat Bengdara, agreed today on the development of “Structures A&E”, a strategic project aimed at increasing gas production to supply the Libyan domestic market as well as to ensure export to Europe.

Who is the largest gas producer in Libya?

Eni is the leading international gas producer in Libya, with a share of 80% of the national production (1.6 bscfd in 2022). The company has been operating in Libya since 1959 and currently has a large portfolio of assets in exploration, production and development.

How much money will be invested in the Libyan oil industry?

The overall estimated investment will amount to 8 billion USD, with significant impact on the industry and the associated supply chain, allowing a significant contribution to the Libyan economy.

Who signed 'structures A&E' agreement in Libya?

The agreement was signed in the presence of the Prime Minister of Italy, Giorgia Meloni, and the Prime Minister of the Libyan Government of National Unity, Abdul Hamid Al-Dbeibah. “Structures A&E” is the first major project in the country since the early 2000.
