

Luxembourg Lightweight Photovoltaic Panel Project

Overview

How many solar power plant projects are in Luxembourg?

Following a call for projects launched in October 2022, 85 solar power plant projects by 75 Luxembourg companies qualified for public funding. These projects will receive a total investment aid of €16.1 million. Some of the selected companies received support from Luxinnovation.

Does Luxembourg have a photovoltaic system?

Photovoltaic installations in Luxembourg are diverse and include rooftop solar, ground-mounted solar plants, floating installations and solar carports. From January 1, 2023, the government reduced the value added tax (VAT) on new photovoltaic installations to 3% and increased subsidies for photovoltaic installations for own needs to 62.5%.

How did Luxembourg achieve a breakthrough in photovoltaic installations in 2021?

In 2021, Luxembourg achieved a notable first in the realm of photovoltaic installations with the introduction of floating solar panels in Differdange.

How many photovoltaic panels does ArcelorMittal Luxembourg have?

8,600 photovoltaic panels on the roof of its European Logistic Center. - ArcelorMittal Luxembourg 8,600 photovoltaic panels on (.) 8,600 photovoltaic panels on the roof of its European Logistic Center.

Are Luxembourg companies ready to play a role in the energy transition?

“The result of this call for projects is a success for the Luxembourg economy and for the climate: the companies present on our territory have demonstrated that they are ready to play an active role in the local energy transition.

How much money will a photovoltaic power plant project receive?

The projects will receive a total of approximately €16 million in financial aid. In the next 18 months, these companies will implement the photovoltaic power plant projects with at least partial self-consumption of the electricity produced. The combined capacity of these plants will be over 46-megawatt peak (MWp).
