

Mali solar base station manufacturer

Overview

The Fana Solar Power Station is a planned 50 MW (67,000 hp) solar power plant in Mali. The power station is in the development stage, under concessional terms by the company Legendre Energy, a subsidiary of the Legendre Group, a French conglomerate, under a public private partnership.

The power station is located near the town of , in in Mali's . Fana lies approximately 127 kilometres (79 mi), by road, east of , the country's capital city.

The construction costs for this project were reported to be €92.7 million (US\$108 million). The initial agreements were signed in 2016. In.

The power station is designed to have a 50 megawatt capacity. Its output is intended to be sold directly to the Énergie du Mali (EDM-SA), the national electricity utility monopoly company, for integration into the national grid, under a long-term .

The energy generated by this power station is expected to increase the number of people inside Mali, who are connected to grid electricity and to reduce the country's electricity deficit.
