

Mauritania mobile power station type power generation

Overview

How does Mauritania get its electricity?

The last 24% is insured by the electricity importation coming from Manantaly hydro power plant based in Mali. In 2011, electricity production stood at 136 megawatts (MW) in Mauritania and was 100% from thermo power. Mauritania aims to increase and diversify its energy sources.

Does Mauritania have a hydropower potential?

There isn't much of a hydropower potential in Mauritania. Nevertheless, the country imports hydropower electricity from Manantali hydropower plant. This source can provide 30 MW to Mauritania, mostly for the cities of Boghé and Kaédi. Mauritania aims to increase the share of hydropower electricity to 30% by 2015.

Does Mauritania export energy to Senegal and Mali?

Mauritania exports surplus energy to Senegal and Mali while also benefiting from hydroelectric dams in Mali. / 21.30444°N 16.51806°W / 21.30444; -16.51806
