

Montenegro solar panel production company

Overview

What is the largest solar power plant in Montenegro?

The project launched by the firm based in Podgorica is therefore the largest in Montenegro in the sector and also one of the biggest ones in the Balkans. The peak or nameplate capacity of a solar power plant is the maximum production in terms of direct current and it is usually 20% or so bigger than the grid connection capacity.

Where is Res Montenegro planning a solar project?

A section would be placed in the cadastral municipality of Lastva, which RES Montenegro Group is also eyeing for its own project. Sunrise Europe, based in the seaside town of Kotor, intends to set up a solar park with a peak capacity of 220 MW in Šavnik while the company Obnovljivi izvori energije is preparing to build a 225 MW facility in Cetinje.

Will Montenegro build a photovoltaic park?

The Government of Montenegro issued the urban planning and technical requirements for the construction of a photovoltaic park at seven locations in Lastva and Ubli near the country's historic capital of Cetinje. RES Montenegro Group has determined that the potential connection capacity is 506 MW and estimated the annual output at up to 750 GWh.

How much solar power does Montenegro have?

Montenegro had installed solar power capacity of just 6 MW at the end of 2020. The country's solar power capacity is significantly smaller than the electrical power demand, which is currently met by the 225 MW Pljevlja thermal power plant in the north of Montenegro and two large hydropower plants, at Perućica (307 MW) and Piva (363 MW).

Did Montenegro lower the value-added tax for solar panels?

Montenegro recently lowered the value-added tax for solar panels. EPCG has a

program called Solari for rooftop solar panels for households and companies. RES Montenegro Group got the urban planning and technical requirements for a photovoltaic system with a connection capacity of up to 506 MW.

How big is Res Montenegro?

RES Montenegro Group has determined that the potential connection capacity is 506 MW and estimated the annual output at up to 750 GWh. The project launched by the firm based in Podgorica is therefore the largest in Montenegro in the sector and also one of the biggest ones in the Balkans.
