

# New Energy Base Station Wind Power Generation System

### **Overview**

What is Huaneng Shangdu wind power base?

At 23:58 on June 30, 2023, the Huaneng Shangdu Million Kilopower Wind Power Base, the first wind fire baling and outgoing new energy base project in China, was connected to the grid in full capacity, marking that the installed capacity of China Huaneng Group's new energy exceeded 60 million kW.

What is a 10 million kilowatt wind power system?

Wind Power Generation System Model A 10-million-kilowatt clean energy base is rich in wind energy resources, with a wind speed of about 5 m/s-9 m/s at a height of 90 m, which has great development potential.

What is a 1 million kilowatt wind-solar power project?

A view of the 1 million-kilowatt wind-solar power project in Qingyang, Northwest China's Gansu Province, the first project to enter service at the Huaneng Longdong Energy Base, the country's first 10-million-kilowatt multienergy complementary comprehensive energy base [Photo/sasac.gov.cn].

How many kW of solar power will be installed at the base?

The clean energy projects at the base are planned to have an installed capacity of 6 million kW, which includes 4.5 million kW of wind power and 1.5 million kW of solar power. Construction of the supporting energy storage facilities is also included.

Where is China's first wind-solar power project located?

The 1 million-kilowatt wind-solar power project in Qingyang, Northwest China's Gansu Province, started operation as the first 4.05-megawatt wind turbine began to run on Dec 21. It was the first project to begin service at the Huaneng Longdong Energy Base, the country's first 10-million-kW multi-energy complementary comprehensive energy base.

### How will China's new power base work?

All projects at the base are scheduled to be put into operation within China's 14th Five-Year Plan (2021-25) period. Once operational, the base is expected to export 24 billion kWh of power annually to East China's Shandong Province through the ultra-high-voltage power transmission line.
