

New Zealand outdoor power prices

Overview

Where can I find a good electricity plan in New Zealand?

Compare power plans from Electric Kiwi, Meridian Energy, Contact Energy, Genesis Energy, and other top New Zealand electricity providers. Compare electricity prices and plans from major NZ power companies completely free. No hidden fees or charges. Find the best electricity plan whether you're a low user (under 8,000 kWh/year) or standard user.

How much does electricity cost in NZ?

The average NZ household, comprised of a couple with two kids under the age of 18, pay between \$2,000 to \$3,000 a year in electricity. Take into account though, that your power bill might vary depending on several factors, including the number of occupants of the household, the type of appliances used, and more.

Which power supply is best for camping in New Zealand?

Being the smallest type of portable power supply for camping, portable power banks tend to be the best option for campers who are hiking New Zealand's epic trails. If travelling to New Zealand campsites by car or campervan, you can get electricity through your vehicle's battery.

Can you get electricity while camping in New Zealand?

Segueing from the point above, one final way you can get electricity while camping in New Zealand is by hooking up to a power supply in a campground. In New Zealand holiday parks and campgrounds, these are known as "powered sites".

How do I save money on electricity in New Zealand?

Many New Zealanders save \$200+ per year by switching providers. Use the slider above to set your monthly electricity usage in kWh. Check your power bill if you're unsure. See calculated monthly costs for electricity plans from

major NZ power companies including fixed daily charges. Contact your chosen electricity provider directly to switch.

Can you get electricity from a car in New Zealand?

If travelling to New Zealand campsites by car or campervan, you can get electricity through your vehicle's battery. To access this battery power, however, you'll need a power inverter with a car adapter to connect to the cigarette lighter port.
