What batteries must be packed according to the packing guidelines?

All batteries and devices must be packed according to our packing guidelines. Used for everything from powerbanks, mobile phones, laptops, power tools to e-bikes. These power portable electronic devices, such as cameras, cell phones, laptop computers and camcorders. Powerful batteries containing lead, acid and hydrogen gas.

Can a New Zealand battery pack be repacked & re-energised?

We have a comprehensive range of cells imported to New Zealand for assembly to meet your requirements. Commercial and Industrial battery packs can be repacked, re-energised with the latest in technology, providing better capacity and run time, often at a fraction of the New Replacement price.

What kind of batteries can you pack in a carry-on bag?

These batteries come in sizes ranging from AAA to AA, C, D, 9V and are sometimes rechargeable. Often used in children's toys, shavers, toothbrushes and torches. Spare or loose batteries must only be packed in carry-on bags.

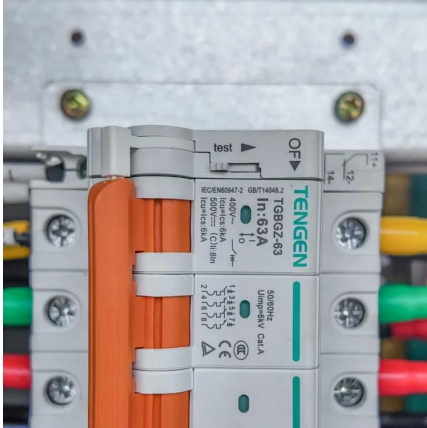

Portable electronic devices that are fitted with these batteries can be packed in either carry-on or checked-in bags.

Do you do battery repacks?

We also do battery repacks to give your old batteries a new life. Find most supplies needed to build, repair, or maintain batteries or electronic projects. Here are our main services please contact us for anything else Get a new 18650 battery pack that will suit any of your needs. Give your old 18650 battery pack a new life with a repack
