

# **Norwegian high-performance energy storage battery manufacturer**

## Overview

---

Nordic Batteries AS, founded in 2014 in Norway, specializes in advanced battery modules, packs, and energy storage systems for industrial sectors including construction, maritime, defense, and power grids. Why is Norway a leader in battery manufacturing?

As a pioneer in the clean energy sector, Norway has also shown strength in battery manufacturing. As the global demand for sustainable energy solutions grows, Norwegian battery manufacturers are at the forefront of this change.

Who are the top 10 battery manufacturers in Norway?

This article will introduce the top 10 battery manufacturers in Norway, such as Morrow, FREYR Battery, and TECO 2030. These companies have made significant achievements in technological innovation, sustainable production, and international cooperation, contributing not only to the Norwegian economy, but also to the global green transition.

What makes Nordic batteries a sustainable brand?

Nordic Batteries also emphasizes sustainability in their production methods, using renewable energy sources throughout their manufacturing processes. Their battery designs consider the complete lifecycle, including potential second-life applications and eventual recycling, supporting circular economy principles.

Can battery production create green jobs in Norway?

Battery production can create new, green jobs and more export legs for the Norwegian economy to stand on. We need that now, says CEO of NHO Ole Erik Almlid. Agder Energi and Bjørn Rune Gjelstens NOAH AS are two heavy industrial partners who are now starting Morrow Batteries.
