

Outdoor power supply for refrigerator

Overview

Jackery Portable Power Stations are powerful and portable battery backups for refrigerators and freezers. They are available in different sizes and capacities, so you can keep food and medicines fresh in the refrigerator.

In simple words, a battery backup for a refrigerator is a reliable power source that can supply electricity to the appliance when the primary electricity grid is down.

Even though your refrigerator can keep food items safe and healthy for some time after the power outage, you'll need a battery backup in the long run. If you are.

Jackery Explorer Portable Power Stations and Jackery Solar Generators are designed to supply stable electricity to different types of refrigerators, including their.

A home refrigerator typically consumes 300 to 800 watts of electricity. It generally has much lower running watts than their stated average watts because they cycle.
