

Outdoor power supply is easy to use durable and high power

Overview

What is the best portable power supply for camping?

Doing away with bulky, fuel powered generators, the EcoFlow River is a smarter way to power up outdoors. Rugged and efficient, this portable power supply was made for camping. Designed with a built-in handle, the River is easy to transport and can be charged via car port, wall outlet, or solar power.

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

Do portable power stations make camping better?

A good portable power station makes camping better. These devices power lights, phones, and small appliances when you're outdoors. We spent three months testing power stations to find the best portable power stations for camping. We tested 30 portable power stations over 12 camping trips.

Which portable power station should I buy?

If you are searching for a compact portable power station for on-the-go activities, the Jackery Explorer 300 is our recommendation. This unit is ideal for charging phones and laptops or running small appliances like lights and fans. Its small form makes it an extremely versatile option.

How much power does a portable power station need?

For portable power stations, capacity is measured in watt-hours (Wh), telling you how much energy the unit stores. Weekend adventures typically need 200-300Wh for smartphone charging and LED lighting. Glamping and campground camping with amenities require 500-700Wh units to power fans, portable coolers, and CPAP machines.

Should you buy an outdoor power strip?

If those two sockets in your outdoor outlet aren't enough to fulfill your outdoor power needs, then you'll want to invest in a good outdoor power strip. These handy appliances can multiply a single socket into six or even 10, allowing you to power multiple strings of lights or various outdoor appliances simultaneously.
