

Pack lithium batteries

Overview

How to pack lithium batteries safely?

Pack lithium batteries safely and according to air transportation guidelines if you plan to ship them. Leave installed lithium batteries in the devices they power. Don't take out any removable lithium batteries that are already installed in personal electronic items. This eliminates the need to pack them in any special way.

What types of batteries should I pack and ship?

A UPS guide to help you safely pack and ship many kinds of batteries including lithium metal, damaged or defective batteries and alkaline or certain nonspillable lead-acid batteries.

How do you store a Spare lithium battery?

Isolate the terminals of loose spare batteries to prevent possible short-circuits. Keep spare lithium batteries in their retail packaging if you haven't yet opened them. Place loose lithium batteries in a protective battery case, individual plastic bags, or put any non-metal tape over the terminals to isolate them.
