

Poland s largest liquid-cooled energy storage system

Overview

PGE Polska Grupa Energetyczna has contracted LG Energy Solution Wrocław to build a 262 MW, 981 MWh electricity storage facility in Żarnowiec, valued at €372 million. Completion is expected by Q2 2027. This will be Poland's largest energy storage project and among the largest in Europe. Is Poland a key player in Europe's energy storage sector?

Poland is emerging as a significant player in Europe's energy storage sector. The recent capacity market auctions in December 2024 highlighted a substantial shift towards BESS, with approximately 2.5 GW secured by new generation capacity market units, predominantly Li-ion energy storage projects.

Is a 50MW project a key market for energy storage in Poland?

The acquisition of two 50MW projects totalling 400MWh of capacity marks the developer's first entry into Poland, which is fast becoming a key market for energy storage in the Central and Eastern Europe region.

What does ENEX 2025 tell us about energy storage in Poland?

The insights from Enex 2025 reinforce that BESS is no longer an emerging trend—it's a critical part of Poland's energy transition. With favorable market reforms and growing investment interest, the country is well-positioned to capitalize on energy storage innovations.

Will Poland lead battery storage deployments in Eastern Europe?

In a sponsored article for Energy-Storage.news published in December 2023, analysts from research firm LCP Delta noted that Poland "looks set to lead battery storage deployments in Eastern Europe."
