

Saint Lucia outdoor power supply market share

Overview

How does St Lucia get its energy?

St. Lucia receives about 98 percent of its overall energy through imported oil products, with the remaining share coming from combustible renewables & waste. All refined petroleum products are imported and subsequently stores at the Hess Oil St. Lucia Company Limited (HOSL) oil storage facility in the northern part of the island.

Is St Lucia a combustible country?

St. Lucia, like most ECS, is characterized by a high dependence on imported fossil fuels to meet its energy demand. Saint Lucia has no known petroleum reserves and apart from limited usage of combustible renewables, all energy is imported, mainly from Trinidad. St.

What is St Lucia's economy based on?

St. Lucia's economy used to be primarily based on mono-crop agriculture (especially bananas). However, since the early 2000s, tourism has emerged as the main revenue earner of the economy, with services, manufacturing and industry being the other important productive sectors. (Castalia Consulting, 2012)
