

Selling solar power systems to the Czech Republic

Overview

Are photovoltaic power plants available in the Czech Republic?

In the Czech Republic, the availability of photovoltaic power plants for households has never been better. According to pwXchange, the wholesale price of solar panels has halved since December 2022. Those who install a typical rooftop power plant can now save up to a hundred thousand crowns compared to the previous year.

Will the Czech Republic invest in solar power?

The Czech Republic will have hard time looking for someone willing to invest in the sector," the Czech Solar Association Chairman Jan Krcmar said. Majority state-owned electricity producer CEZ (CEZP.PR) plans to invest \$4.15 billion - four times its 2020 profit - into building 6 gigawatt of solar power capacity by 2030.

Why is solar energy so unpopular in the Czech Republic?

Solar energy has long been unpopular among Czech politicians since high compensation led to an uncontrolled boom in solar in 2009-2010, costing around 1.8 billion of euros in subsidies per year to the sector split between consumers and the government. The bill also raises special taxes paid by solar plants built in 2009-2010.

How is the Czech energy sector governed?

3.2.1 The Czech energy sector is governed by a wide range of laws and regulations implementing European legislation. The main regulation is Act No. 458/2000 Coll., on conducting business and government supervision of the energy sector (Czech Energy Act).

Where can I buy solar panels?

SOLSOL has been your reliable partner in solar energy since 2012. All orders are subject to the General Terms and Conditions. Copyright © 1996-2023,

SOLSOL s.r.o. Buy photovoltaic panels, inverters, batteries, BESS and PV structures directly from SOLSOL. Professional B2B e-shop for partners with quick and easy ordering.

Selling solar power systems to the Czech Republic

Solar photovoltaic panels in the Czech Republic

There are about 20 companies in the Czech Republic who manufacture solar photovoltaic panels. The biggest part of their output is exported.
