

Serbia City Photovoltaic Panel Manufacturer

Overview

Domi Eko Solar has started to manufacture photovoltaic panels in its plant near Velika Plana in central Serbia. It is the first PV panel production unit in the country. Serbia is recording a large increase in demand for solar panels for self-consumption. Is Serbia a good market for solar energy?

In conclusion, Serbia is still a very young but promising market in the solar energy sector, with some fast-growing solar distributors. Many top solar distributors, solar panel manufacturers and suppliers are in partnership with European companies.

Why is solar energy becoming an attractive prospect in Serbia?

There are several reasons why solar energy is becoming an attractive prospect in Serbia, and we'll be looking at some of them. Solar solutions or projects appeal massively in Serbia because they're durable. According to research, the average lifespan of a solar panel is 20-25 years, while that of the battery and inverter is a decade.

Will Serbia offer solar incentives to power production companies?

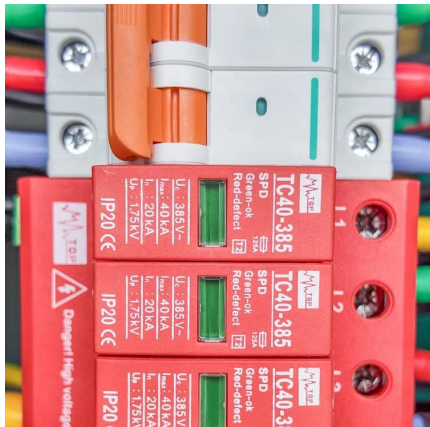

The Serbian government announced that it would offer power production firms solar incentives to encourage and promote rooftop solar installations in the country. The government also announced that the companies selected for this benefit would be determined through the auctions.

How much electricity does Elektroprivreda Srbije produce a year?

The main utility company in the country, Elektroprivreda Srbije, has a total capacity of 7,662 megawatts that produces roughly 39 terawatts of electricity annually. From this figure, a significant portion (4,390 MW) comes from its lignite thermal power plants, 336 MW from gas and liquid fuel power plants, and 2,936 MW from hydropower stations.
