

South Sudan announces latest energy storage project

Overview

Does South Sudan have a solar power project?

South Sudan has taken a significant step toward renewable energy with the launch of its first major solar power project. The Ezra Group, a leading business conglomerate, has successfully developed and financed a 20-megawatt (MW) solar power plant along with a 14-megawatt-hour (MWh) Battery Energy Storage System (BESS).

Why should South Sudan invest in solar power & battery storage?

This project marks a significant achievement for South Sudan, reinforcing its commitment to renewable energy and environmental responsibility. By investing in solar power and battery storage technology, the country is making a decisive move toward energy independence, economic growth, and a sustainable future for its people.

Why is South Sudan launching a 20 MW solar power facility?

The inauguration of the 20 MW solar power facility in Gondokoro signifies a monumental leap forward for South Sudan's renewable energy sector. With this project, South Sudan becomes one of the few nations in Africa to harness solar energy on such a scale, showcasing its potential for sustainable development.

What projects are underway in South Sudan?

Plans are already underway for other projects like the government-owned Nisitu Solar Plant which will complement existing structures and enhance overall grid reliability. Ezra Construction & Development Group is dedicated to expanding renewable energy solutions across South Sudan.

Does South Sudan have a solar-plus-battery storage project?

Key Figures & Findings: South Sudan is embarking on a significant renewable energy transformation, with a new solar-plus-battery storage (BESS) project to

address the country's alarmingly low energy access.

What is Ezra group doing in South Sudan?

Ezra Group unveils a 20 MW solar power project in South Sudan, featuring 14 MWh battery storage. Join the renewable energy revolution!

South Sudan announces latest energy storage project

Ezra Group Launches 20 MW Solar Power Project With 14 MWh ...

Ezra Group launches South Sudan's first 20 MW solar plant with 14 MWh battery storage, enhancing clean energy and grid stability.
