

Spanish Communication Base Station EMS

Overview

Do EMS workers need a Spanish course?

In your job, effective communication can be a matter of life and death. Don't let language and cultural barriers interfere with your ability to provide high quality care! Now there's a Spanish course designed specifically for EMS workers that will help you: Health care workers are some of the busiest people we know.

How do I select a EMS base station Radio?

To select a channel on an EMS base station radio, you should set the channel selector on the local primary channel as used in your area. The channel select button must be depressed in order to transmit on the selected frequency.

What CTCSS tone do EMS med radios use?

For this reason, all New Mexico EMSCOM UHF radios on the EMS MED channels should be using CTCSS tone 136.5. Types of Stations: A base station transmits directly to mobiles and portables. If the base station is at some distance away from the operator, it is known as a remote base station.

What is the function of the EMScom system?

The EMScom system is designed to provide a mechanism for EMS providers in the field to communicate vital patient information directly to the physician in the Emergency Department or to an intercepting ALS crew. As stated earlier, one of its main purposes is to use the following format for patient presentation.

What is the purpose of the EMSCOM manual for?

This manual is provided for the use of all services that may have occasion to use the New Mexico Emergency Medical Services Communications (EMSCOM) System. The intended purpose of the manual is to provide a basic understanding of the capabilities and proper utilization of the State EMSCOM

system. Maintenance policies are also included.

How do you communicate with an EMS technician?

Give assessment information about your patient, but avoid offering a field diagnosis of the patient's problem. For example, say, "Patient complains of abdominal pain" rather than "Patient probably has appendicitis." Avoid slang or abbreviations that are not authorized. Use EMS frequencies for only authorized EMS communication.
