

Timor-Leste Communications 5G base station opened

Overview

Why is Telemor launching 5G in Timor-Leste?

Telemor, licensed in Timor-Leste since August 2012, has driven telecom modernization, with the 5G rollout marking a new phase in bridging the nation's digital divide and supporting ASEAN's collective vision for a tech-driven future. TATOLI.

Will Viettel upgrade Timor-Leste's 4G network to 5G?

"During the talks, CEO Nguyen announced Viettel's commitment to upgrade Timor-Leste's network from 4G to 5G, promising enhanced quality and opportunities for economic, educational, and social sectors," said in a statement.

How many telecom operators are there in Timor-Leste?

Timor-Leste has three main telecom operators: Timor Telecom (TT), Telkomcel, and Telemor, which until recently enjoyed a triopoly in the market.

How many people use the Internet in Timor-Leste?

As of early 2025, approximately 486,000 individuals in Timor-Leste were using the internet, representing 34.5% of the population datareportal.com. This means roughly two-thirds of citizens are still offline. Notably, this figure is a downward revision from an earlier estimate of ~742,000 users (54.2% penetration) reported in 2024 datareportal.com.

Will satellite internet be a big impact in Timor-Leste?

All told, satellite internet's impact in Timor-Leste is just beginning – it has already expanded availability, and in the next few years, with cost adjustments and creative deployment, it could significantly narrow the urban-rural connectivity gap.

Is Timor-Leste's Internet landscape at a turning point?

In conclusion, Timor-Leste's internet landscape in 2025 is at a turning point. The combination of a newly lit fiber-optic backbone, the availability of cutting-edge satellite broadband, a government committed to digital development, and a youthful population eager to embrace technology creates a promising scenario.
