

Tonga government supports energy storage projects

Overview

How will Tonga move away from fossil fuels?

This project aims to help Tonga move away from fossil fuels and shift to renewables. The project will deliver utility-scale storage systems to provide base load response and grid stability, paving the way for more renewable energy integration in the main island, while green mini-grids will be installed in the outer islands.

How can Tonga transform its energy sector?

The Government of Tonga has formulated targets to transform its energy sector by achieving a 50 percent share of renewables in the country's energy generation mix by 2020 and 70 percent by 2030. However, achieving these targets require catalytic investments to transform the country's energy infrastructure.

What is the Tonga e-Governance Project?

The project will form part of the Government of Tonga's strategy to implement e-governance by strengthening core public health functions (routine information systems) with technology to enable real-time, integrated, electronic data collection.

How can Tonga improve its economy?

The Tongalese economy heavily relies on foreign aid to offset its chronic trade deficit. A potential solution for improving the Tongan economy is increasing high-value tourism. Tonga hopes to attract more tourists to its outer islands, which have white sandy beaches and ideal sailing conditions.

How much energy does Tonga generate?

It accounts for 90 percent of its electricity generation. The Government of Tonga has formulated targets to transform its energy sector by achieving a 50 percent share of renewables in the country's energy generation mix by 2020

and 70 percent by 2030.

Is Tonga a climate resilient country?

Shifting electricity production in Tonga to a low-carbon, climate resilient path. Tonga is the second most climate vulnerable country in the world. Like many other Small Island Developing States in the Pacific, Tonga's energy source is almost exclusively imported diesel. It accounts for 90 percent of its electricity generation.

Tonga government supports energy storage projects

Tonga

This project is operated by the Tonga Power Limited public grid operator and was financed by the Asian Development Bank, the Green Climate Fund and the Australian government.

[Tonga's first BESS project inaugurated](#)

Tonga's first utility-scale battery energy storage system (BESS) project was officially opened today at an event attended by the South Pacific ...
