

Uruguay PV panel inverter

Overview

How much solar power does Uruguay have?

As of last year, the country's overall installed solar capacity stood at approximately 248 Megawatts. This capacity accounts for 2% of the country's total energy production. Uruguay's solar market prospects are likely to get better owing to the government's overwhelming support.

Does Uruguay have a solar market?

Uruguay's solar market prospects are likely to get better owing to the government's overwhelming support. In 2013, the government of Uruguay drafted several laws aimed at supporting the solar sector. Such favorable regulations are the main driving factors behind the growth of Uruguay's solar market.

Why should you choose a solar project in Uruguay?

Uruguay boasts of eight advanced ports that allow the movement of solar equipment from one market to another. Its logistics sector is also among one of the leading ones worldwide. Consequently, you don't have to worry about transporting your equipment from the port to the project site if the need arises.
