What telecommunications are available in Chad?

In Chad, there are various telecommunications services available, including radio, television, fixed and mobile telephones, and the Internet. The stateowned radio network, Radiodiffusion Nationale Tchadienne (RNT), operates national and regional stations. Approximately 10 private radio stations are also present, with some stations rebroadcasting programs from international broadcasters (2007).

Who owns a mobile network in Chad?

Chad's mobile sector consists of a duopoly, with Airtel (owned by Indian Bharti Airtel) comprising 47% of the market and Tigo (owned by Maroc Telecom) comprising the other 53%. The national telecom and fixed-line operator, Sotel Tchad, has licenses to operate a mobile network but is not present in the market.

What is Chad's telecommunications market like?

Overview Chad's telecommunications market is one of the least developed in the world but is seeing rapid growth and investment. The Government of Chad and foreign investors are focused on developing mobile cellular technology and fiberoptic infrastructure to improve web connectivity and digitize

documents and services.

Is Chad a good place to invest in telecom services?

Nevertheless, despite difficult operating conditions, large scale poverty and low spending power, Chad's telecom market offers some potential for investors to develop services given the low starting base.

Is Chad lagging behind in the development of telecommunications?

Compared to the United States, Chad is massively lagging behind in the development of telecommunications. Under the country code +235, there were a total of 12.09 million connections in 2022. Among them were 12.09 million mobile phones, which corresponds to an average of 0.68 per person. In the US, this figure is 1.1 mobile phones per person.

How much does mobile telephony cost in Chad?

However, this is already quite a high consumption in a worldwide comparison. If one does not take a fixed amount in US dollars, but converts it to the economic output per inhabitant, a user in Chad spends 38.59% of his income on mobile telephony. Worldwide, this rate is around 5.4 percent. In the USA, the monthly cost was around \$44.10.
